OAC Meeting Notes
01-09-2017 – BBL 545

Present: Deb Panja, Fabiano Dalpiaz, Wolfgang Huerst, Ruben Meuwese, Thomas Kok, Arian Putten, Crystal Reijnen (notes)

Absent: Simon Karman

Open: 15.04 Closed: 16.28

Course Evaluations

Business Intelligence
- Jedox has been a problem for many years, however the teacher does not recognize the issues
- The exam is alarming as well, the teacher admitting he did not want to spend too much time grading – risk for quality

ICT Entrepreneurship
- Pluim candidate
- No special remarks, the OAC trusts the teachers to include the feedback and suggestions in next year’s course

Mobile Interaction
- Pluim candidate
- First year that this course has had this many students
- Teacher acknowledges that lectures were too crowded with information
- The area is pretty fast moving, making it difficult to keep literature up to date. The overview papers are more out-dated. The teachers tries to find a balance.

Software Production Management
- The course had some issues regarding teaching style, assignments, and communication
- However, the course is discontinued and will be split up into two completely new courses: Requirements Engineering and Software Production
- Teachers are aware of the feedback
- Conclusion: since the course will not be taught anymore, the OAC decides not to comment or take action

Scheduling and Timetabling
- The teacher did not respond
- No special remarks

Geometric Algorithms
- Generally, the course was perceived pretty good
- Course should be taught in English
- The teacher acknowledges the few remarks
- The OAC agrees and decides not to take action
Computer Animation
- The course was not appreciated in general, some students did not think it was university level

Games and Agents
- This course has been a problem for 4 years; it has been scored a 6 every year
- The lectures were not perceived to be very inspiring by the students

Compiler Construction
- This was the first year the course was taught.
- Some topics were better rated than other topics.
- The OAC thinks he will change the course to be more fitting to his field of research and interest.
- The exam appeared to be a little unbalanced, the OAC does not think it was alarming or serious enough to take action.
- No actions needed, the teacher is experienced enough to improve the course.

Pattern Set Mining
- Only 3 responses, so the OAC does not have any remarks.

Pluimen
*Note that the pluimen are not a ranking, but individually awarded (independent from other courses)

- ICT Entrepreneurship
  o Students have noted they have learned a lot from the course
  o Conclusion: PLUIM
- Mobile Interaction [Wolfgang leaves the room for this issue]
  o Students have noted they have learned a lot from the course
  o Conclusion: PLUIM
